

Dedicated to providing quality products and resources to enhance the lives of individuals with communication differences.

Durable Communication Sign Installation Suggestions

The Resources of Lakeshore Speech, LLC durable communication signs are made from an aluminum alloy which makes them extremely lightweight. This material an exterior sign substrate that will hold up in any type of weather, it is a pvc plastic core sandwiched between two sheets of aluminum.

Mounting the sign is extremely easy given the weight of the material. Below are a few examples of how easily the signs can be mounted. Resources of Lakeshore Speech, LLC does not provide any mounting instructions as it is up to the individual to deem what is best for each situation. All items pictured below were purchased at a local hardware store. Drilling this material was easily accomplished with a basic electric drill and bit.

Nut, Bolt and Metal Plate

C-Ring Chain

Heavy Duty or Metal Zip Tie

If a fence is not available, the sign can easily be secured to the side of a rolling step or on a wheelchair ramp. Ultimately, you can secure the board and easily relocate it without incurring a significant cost.
